Canyon Creek on the Lakes Residents

**Re: Sanitary Blasting
Canyon Creek Apartments**

Dear Residents,

On Monday, July 1st, crews will begin to create a new route for the sanitary sewer system in the adjacent lot that will soon become Canyon Creek Apartments. In order to create this new route, crews will need to use small amounts of charged explosives to blast away rocks. During this process, you are likely to loud noises that might sound like fireworks. The blasting process will continue over the next 30 days from July 1st and will never begin before 7:00 am and will always end before 7:00 pm. Please refrain from calling the police for these noises as they are fully aware of the permit and process. If you observe the blasting occurring before 7:00 am or after 7:00 pm, please contact me directly at the number or email listed below. I am actively working hand-in-hand with the City of Lenexa and the crews on-site. We appreciate your understanding and patience as we work quickly and safely through this activity. We look forward to being complete with this process and are excited to deliver the next development in your outstanding community.

Sincerely,

Streamline Construction, LLC
